SUMMARY

Product-focused Software Engineer with hands-on experience in frontend development, AI integration, and shipping real-world applications end-to-end. Passionate about building LLM-powered tools and user-centric products with a strong emphasis on performance and product quality.

SKILLS SUMMARY

- **Languages:** Python, JavaScript, C++, Java, SQL
- **Frameworks:** React, HTML5, CSS3, Bootstrap, Responsive Design
- **AI / ML:** Machine Learning, NLP, Deep Learning, Generative AI, Prompt Engineering, LLM Applications, RAG, Vector Databases
- **Tools / Platforms:** Git, GitHub, VS Code, PyCharm, Google Colab, MySQL, Railway, Chrome Extensions (MV3)

PROJECTS

Focus Breaker — Chrome Extension	2026
<i>JavaScript, HTML/CSS, Manifest V3, Railway, GitHub CI/CD, Caddy</i>	
• Shipped a Chrome Extension (MV3) to the Chrome Web Store with declarativeNetRequest site blocking, alarm-scheduled focus sessions, and kinetic breathing-guide animations for a premium UX.	
Auto Email Reply — AI Sentiment Engine	2025
<i>Python, NLP, TF-IDF, LinearSVC, TinyLlama, Hugging Face Transformers</i>	
• Built an end-to-end AI pipeline classifying email intent via TF-IDF + LinearSVC and generating professional replies using TinyLlama (Hugging Face Transformers). • Validated across accuracy, precision, recall, and F1-score; architected for plug-and-play LLM swaps as stronger models become available.	
Washore — Beach Littering Detection System	2022
<i>Python, Computer Vision, Image Recognition</i>	
• Built an image recognition pipeline achieving 95% accuracy in detecting beach littering, enabling scalable automated environmental monitoring without human supervision.	

EXPERIENCE

Software Developer Intern Technical Hub	Nov 2023 – Apr 2024
• Built responsive, mobile-first UIs with React and Bootstrap; delivered 3+ frontend modules aligned with real product requirements across full design-to-code cycles. • Optimized component rendering via state management best practices, translating wireframes into pixel-accurate React components.	

CERTIFICATIONS

- | | |
|--|------|
| • Microsoft Azure AZ-900: Azure Fundamentals | 2025 |
| • Frontend Developer Certification — Technical Hub | 2024 |

ACHIEVEMENTS

- Selected for 2022 State-Level Poly Tech Fest for the Washore beach littering detection project, recognized for real-world AI applicability.
- NLTK Contributor: Optimized WordNet depth calculations using precomputed paths, achieving a 22,000x speedup with robust unit tests.

EDUCATION

Koneru Lakshmaiah University	India
<i>Bachelor of Technology — Computer Science and Engineering</i>	<i>Since Aug 2023</i>
<i>Expected 2027</i>	
Aditya Polytechnic Colleges	Surampalem, Andhra Pradesh
<i>Diploma — Computer Engineering</i>	<i>June 2021 – May 2024</i>
<i>CGPA: 9.7</i>
